

AHMAD

WEB-DEVELOPER

About Me

As a passionate WordPress developer, I have a strong foundation in web development principles, with hands-on experience using Elementor, HTML, CSS, and JavaScript to build dynamic, responsive websites. My academic projects have equipped me with practical skills in creating user-friendly interfaces and managing site functionality. I am eager to bring my problem-solving mindset and enthusiasm for coding to a collaborative team environment, where I can contribute meaningfully and grow professionally.
